## **DETAILED ACTION**

### ***Examiner's amendment***

An Examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Lyman H Smith on February 12, 2004.

The application has been amended as follows:

- a. Claim 8-12 have been canceled.

### ***Status of Claims***

Claims 1-17 are pending in the application. Receipt is acknowledged of amendment / response filed on January 22, 2004 and that has been entered. Claims 13-17 have been added

### ***Response to Election/Restriction***

In response to the restriction requirement, Applicants have elected Group I, which includes claim 1, drawn to a process of preparing a compound of formula V, with traverse is acknowledged. Since the subject matters of Group II, which includes claims 2-7 commensurate in scope with the elected invention of Group I, Examiner agrees to rejoin and examine Group II with the elected invention of Group I. Therefore, all grounds of traversal are rendered moot in view of current Office action.

### ***Reasons for allowance***

The following is an Examiner's statement of reasons for allowance:

Kuhnle et al (US Pat. No. 6,258,832) teach the method for producing thiazolidinediones by reducing a compound of formula IV with activated aluminium in a protic solvent. The instant process differs from the prior art for the preparation of thiazolidinedione derivatives of formula V, which comprises a multi-step reaction process with several intermediate compounds such as compound VI, and VII to obtain the final compound of formula V. The prior art process neither teaches nor renders obvious the steps of the claimed invention and there is no suggestion or motivation to modify the process of other prior art to obtain the instant process. Therefore the instant claims 1-7 and 13-17 are allowable over the prior art of record.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Golam Shameem, Ph.D. whose telephone number is (703) 305-0116. The examiner can normally be reached on Monday-Thursday from 6:30 AM - 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph McKane, can be reached at (703) 308-4537. The Unofficial fax phone number for this Group is (703) 308-7922. The Official fax phone numbers for this Group are (703) 308-4556 or 305-3592.
